

July 2010

Dear 2010 ARML Student,

Congratulations on participating in the 2010 American Regions Math League!

In support of ARML, Wolfram Research is happy to reward you with your very own free copy. This license is yours for as long as you're a full-time student, even when you get to college.

To get your free *Mathematica for Students* license, all you have to do is visit the following website and view the free, on-demand screencast. Please use this Code Key to enter the screencast: **UTB4UU**

The Screencast is here: www.wolfram.com/screencast/topstudents

After viewing the screencast, please click on the screen to receive the complimentary *Mathematica* license request form.

In just three business days, you should receive an email explaining how to download *Mathematica for Students*. This license belongs to you. Please do not share it or give it to anyone else.

You may want to visit Wolfram|Alpha too. It's a popular computational knowledge engine that was created with *Mathematica*. Wolfram|Alpha is great for learning about history, math, science, and almost every other subject you're taking in school:

www.wolframalpha.com

Good luck in everything you do in school and beyond! We're excited to hear from you about everything you will accomplish with *Mathematica for Students*.

Yours sincerely,

Carol Cronin
